

general conditions

The tariffs are subject to the general terms and conditions of KPN Group Belgium and the special terms and conditions, are restricted to personal and private use, and only apply to national calls and text messages, except for special numbers. You pay per second after the first minute. To find out about tariffs for calls to special numbers (070, 0900,...) you can send an e-mail to base.support@kpngroup.be or call 1999 via BASE (free in Belgium) or +32 (0)486 19 1999 from any other network (charges will occur). For more info and conditions on roaming and international tariffs, go to www.BASE.be.

Comparisons have been made between the standard tariffs of BASE, Proximus and Mobistar, and the names of the tariff plans have been stated in every comparison table. Therefore, these price comparisons do not take temporary special offers or promotions, loyalty bonuses, specific options, or volume discounts into account. They have been compiled on the basis of the information appearing on the Proximus.be and Mobistar.be websites and in their brochures on 22/10/2009. Proximus and Mobistar tariffs are restricted to personal and private use, and only apply to national calls and text messages, except for special numbers.
